ABOUT ME

BSc graduate in Data Science from IT University of Copenhagen, with hands-on experience gained through coursework, a Teaching Assistant role, and self-driven personal projects. Currently working as a Student Assistant in AI Implementation and Training at Viegand Maagøe, helping a multidisciplinary consultancy adopt AI tools and workflows in their day-to-day work. Passionate about turning data into actionable insights and building practical, end-to-end solutions. Looking forward to building on this experience during my upcoming Master's in Data Science at ITU, starting August 2026.

EDUCATION

IT University of Copenhagen

Bachelor of Science in Data Science

Copenhagen, DK

Sep 2023 – present

- Relevant Coursework: Machine Learning, NLP and Deep Learning, Large Scale Data Analysis, Probabilistic Programming, Data Science in Production: MLOps and Software Engineering, Data Visualisation and Data-driven Decision Making, Bachelor Project (depression classification from facial/gaze features, DAIC-WOZ dataset)
